

90 capsules per bottle

### Three-Way Action

**StemFLO®** delivers a triple-defense response to supporting your body's ability to naturally renew itself. Comprised of a proprietary blend of all natural herbs and special nutrients, StemFLO® helps support optimal blood flow by providing the following:

- **Digests Fibrin** – StemFLO® contains proteolytic enzymes that help digest fibrin and minimize the effect of fibrin buildup thereby ensuring optimal blood flow in smaller blood vessels and capillaries.
- **Reduces Oxidative Stress** – StemFLO® contains some of the most powerful antioxidant ingredients available today. By helping to lower oxidative stress, StemFLO® helps keep oxidative damage and fibrin production in check.
- **Helps Detoxify the Body** – StemFLO® contains ingredients which have been shown to assist in the elimination of toxins from the body.

The result is a lowering of oxidative stress in the vascular system and an optimization of blood fluidity. By helping to keep the highways and byways of our circulatory system free and clear, StemFLO® supports the smooth “trafficking” of stem cells and nutrients everywhere in the body.

In clinical studies, StemFLO® was shown to improve blood circulation within thirty minutes of consumption. The study showed increased blood circulation in capillaries as well as substantial reduction in blood markers associated with fibrin production and oxidative stress.

## Potential Users

- All that desire optimizing blood flow
- All that desire powerful antioxidants
- All that assisting in elimination of toxins

FEATURES	BENEFITS
<b>Fibrinerase™</b>	A proprietary blend of plant-based enzymes that help digest fibrin and debris in the blood supporting optimal blood flow.*
<b>Mangosteen</b>	An extraordinary fruit originally from Southeast Asia that is well known for its antioxidant properties.*
<b>Berry Extract</b>	A special formulation of berry extracts with proven high antioxidant potential designed to neutralize the production of damaging “free-radicals” in the body. STEMTech uses only extracts which have a high ORAC and CAP-e values. ORAC and CAP-e are the industry standard for measuring the effectiveness of any antioxidant product.*
<b>Cat’s Claw</b>	Also called the “Sacred Herb of the Rainforest”, this tropical vine which is found in the jungles of the Amazonian Basin, provides potent unique antioxidant support.*
<b>Rehmannia</b>	A powerful herb from China used to support optimal blood circulation.*
<b>Curcumin</b>	Extracted from the Turmeric plant, curcumin has been used for centuries in Southeast Asia to help cleanse the blood and detoxify the body.*
<b>Silicate</b>	Rich in minerals, silicate has been shown to have strong antioxidant properties to help reduce oxidative stress. STEMTech uses one of the world’s finest silicates from the United States.*

## INGREDIENTS/LABEL

**Supplement Facts**

Serving Size 3 capsules	
Servings Per Container 30	
<b>Amount per serving</b>	
Proprietary Blend	1075 mg
Cellulose (shell)	1
Mangosteen (whole fruit)	1
Resveratrol Extract (root)	1
Fibrinase® (nattokinase and serrapeptase)	1
Berry Extracts (skin, seed, fruit)	1
Curcumin (extract of curcuma longa)	1
† Daily Value not established.	

**Other Ingredients:** Hypromellose (vegetarian capsule), cellulose, microcrystalline cellulose (USP NF), and silicate.

**Suggested Use:** Take three capsules orally, 1 to 2 times a day.

**Warning:** Like with any dietary supplement it is recommended that you consult your physician if you are pregnant, nursing, on anticoagulant medications or being treated for any medical illness or taking medications.

**Store in a cool, dry place. Do not refrigerate.**

**DO NOT USE IF THE SAFETY SEAL HAS BEEN BROKEN**

## USAGE

3 capsules orally, once or twice a day

## FOR YOUR INFORMATION

Vegan 2 part capsule.

No sugar, artificial colors, artificial flavors, dairy, yeast, or preservatives.

The production of nattokinase (one of the proteolytic enzymes in Fibrinase®) involves the production of natto, which is fermented soy. When the fibrinolytic enzyme is extracted and purified, the final product can contain soy residues. For those who are allergic or sensitive to soy, nattokinase contains some traces of soy.

If you are currently taking nattokinase, Serrapeptidase or other proteolytic enzymes you may no longer need these if you are taking StemFLO.

Proteolytic compounds like Fibrinase® are known to have anti-coagulant properties. Persons who suffer from clotting disorders or who are on anti-coagulant medications should consult their treating health care practitioners prior to taking StemFLO.

Label statement: Consult your physician if pregnant or nursing

(Many products carry such warnings out of an abundance of caution rather than any known pregnancy risk. We know of no evidence that consuming StemFLO® during pregnancy creates a health risk.)

## FAQ'S

### What does StemFLO do?

StemFLO® is a proprietary blend of herbs and all natural ingredients that support optimal blood circulation by reducing fibrin and oxidative stress in the blood. StemFLO® is especially designed to support the delivery of stem cells to all parts of the body. StemFLO® also supports the delivery of nutrients and oxygen, as well as immune cells, throughout the whole body. When used in conjunction with StemEnhance®, StemFLO® optimizes the body's ability to deliver and circulate adult stem cells to the tissues and organs where they are needed.

### How will StemFLO benefit me?

By supporting the breakdown of fibrin in the blood and preventing the formation of new fibrin mesh, StemFLO® supports optimal blood circulation, supporting the optimal delivery of stem cells to the tissues and organs of the body. Therefore, when taken with StemEnhance®, StemFLO® incidentally supports optimal delivery of nutrient and oxygen throughout the body.

### Will I experience immediate effects with using StemFLO?

Studies have shown that ingredients in StemFLO® can bring benefits in a matter of hours. A study using StemFLO® demonstrated benefits on blood circulation within one hour after consumption. This being said, the actual experience of health benefits, as experienced by an individual as an increase in quality of life, may vary depending on each individual.

### Can StemFLO be taken with StemEnhance?

Not only can StemFLO® be taken with StemEnhance®, but StemFLO® was designed to be a companion product to StemEnhance®. Whereas StemEnhance® supports stem cell nutrition, StemFLO® supports their circulation everywhere throughout the body, further supporting the natural renewal system of the body.
